

Where Business & Profitability Converge

We are a world-class enterprise with global horizons in **trading & exports** of
**Petroleum Products Like Bitumen,
Base Oil, Sulphur & Fertilizers**

Introduction

Buoyancy® started its professional journey in 2005 with a robust commitment to go above and beyond and deliver prime quality services. We're one of the most sought-after companies that have been reputed and recognized for the procurement, trading, and export of most actively used petroleum derivatives and fertilizers.

Over the years, we have expanded our horizons with our firm footprints in global, regional, and territorial markets to offer a diversified range of products, particularly, Bitumen, Base Oil, Sulphur & Fertilizers and for this, hands down to the tireless endeavors and unparalleled dedication of our teams who delivered quality and set our high caliber of professionalism. Moreover, our passion, determination, and can-do attitude have helped us achieve our mission and vision of delivering stupendous growth to our clients and serving the industry.

Experience

Buoyancy® is a far-fetched company that delivers excellence. Over our existence and industry expertise of more than 16-years, we strive to exceed clients' expectations. For this, we take supreme quality initiatives to ensure that all the dealings are transparent and the product delivery is of top-notch quality. We are an ISO 9001:2015 and 14001:2015 Certified organization & attend to our clients in a matter of time & resolve all problems in the shortest time. It all happens with our tailored solutions in which we try to be simple and at the same time innovative and proactive. On top of that, we are fueling the future with our tailored strategies and deliveries that help us execute our A-Game.

Products

Buoyancy® is a superior trading and exporting company that deals in all grades and sub-grades of Bitumen, base oil, Sulphur and fertilizers. Our unparalleled business methods and strategies have set us apart from all the suppliers and also have helped us secure the topmost spot in the petroleum industry. In all the products dealing, we ensure to supply the top-notch quality while adhering to the standard protocols as well as technical parameters.

**Buoyancy®
The Trusted

Stability.**

Serving Globally

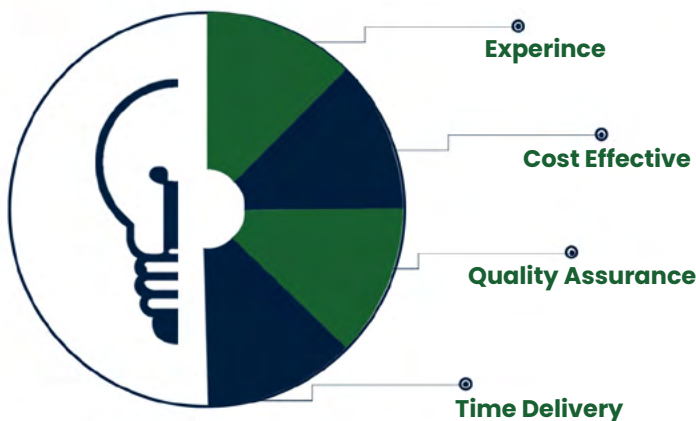

Our qualities of **competitive pricing & timely deliveries** enable our clients to maximize their production and operation in various market segments.

Strengths

Being an ethical group, we offer a refreshing experience to the valued customers. The seamless and satisfying experience to our customers is what pays actual dividends. With strong and active backing from industry veterans, the company is scaling new heights regularly. Honesty, Integrity and authenticity are our core competencies.

Why Us?

Presence

Buoyancy® is an industry leader that has been serving clients globally for over a decade. And it adds to our immense pleasure that our clientele recognized us as the company that exceeds expectations.

Our enterprise devises state-of-the-art strategies & implements them to deliver exceptional results that result in mutual growth.

Our clients come from diversified backgrounds, i.e., government institutions, Fortune 500 companies, and private companies. Moreover, we also cater and deliver exceptional petroleum goods to entrepreneurial startups that let them position themselves impeccably.

BITUMEN / ASPHALT

Buoyancy® is a leading Bitumen/Asphalt supplier that supplies Bitumen of all grades and sub-grades to a wide range of contractors for delivering unmatched quality projects. We are committed to delivering Bitumen of high quality that meets the needs of our clients and helps them grow stupendously with fine-quality projects.

Our teams deliver efficient products that keep up with our good name in the industry. Moreover, our teams professionally analyze clients' requirements by segmenting them into different geographies, logistics, packing, quality, and quantity categories. On top of that, we ensure to abide by the standards and regulations. Therefore, our Bitumen is fully compliant with international standards ASTM, AASHTO, EN, and SABS. Our product is thoroughly tested using the quality methods to inspect before delivering the final product. In addition, our teams focus on loading sights and certifying the product by engaging third-party inspection through SGS, BV, Inspectorate, Geo-Chem, Etc.

Grades We Export

- Penetration Grade
- Viscosity Grade
- Cutback Grade
- Polymer Modified Grade
- Emulsion Grade
- Natural Bitumen or Gilsonite
- Oxidized Grade
- Performance Grade

We have been accomplishing material supplies to numerous **National & International Projects** for the last 16 years. On top of that, we are also providing end-to-end infrastructure solutions so that people can bring their ideas to the real world.

Buoyancy® – A Top-Tier name in Base Oils Industry

At Buoyancy® we understand how significant base oil's role actually plays in the processing and making of lubricants. And considering this, we provide base oils of different viscosity that can be used at different temperatures. Moreover, the base oil we provide to our clientele is recovered from selective crude oil with a proven method of extraction that preserves the concentration as well as the molecules.

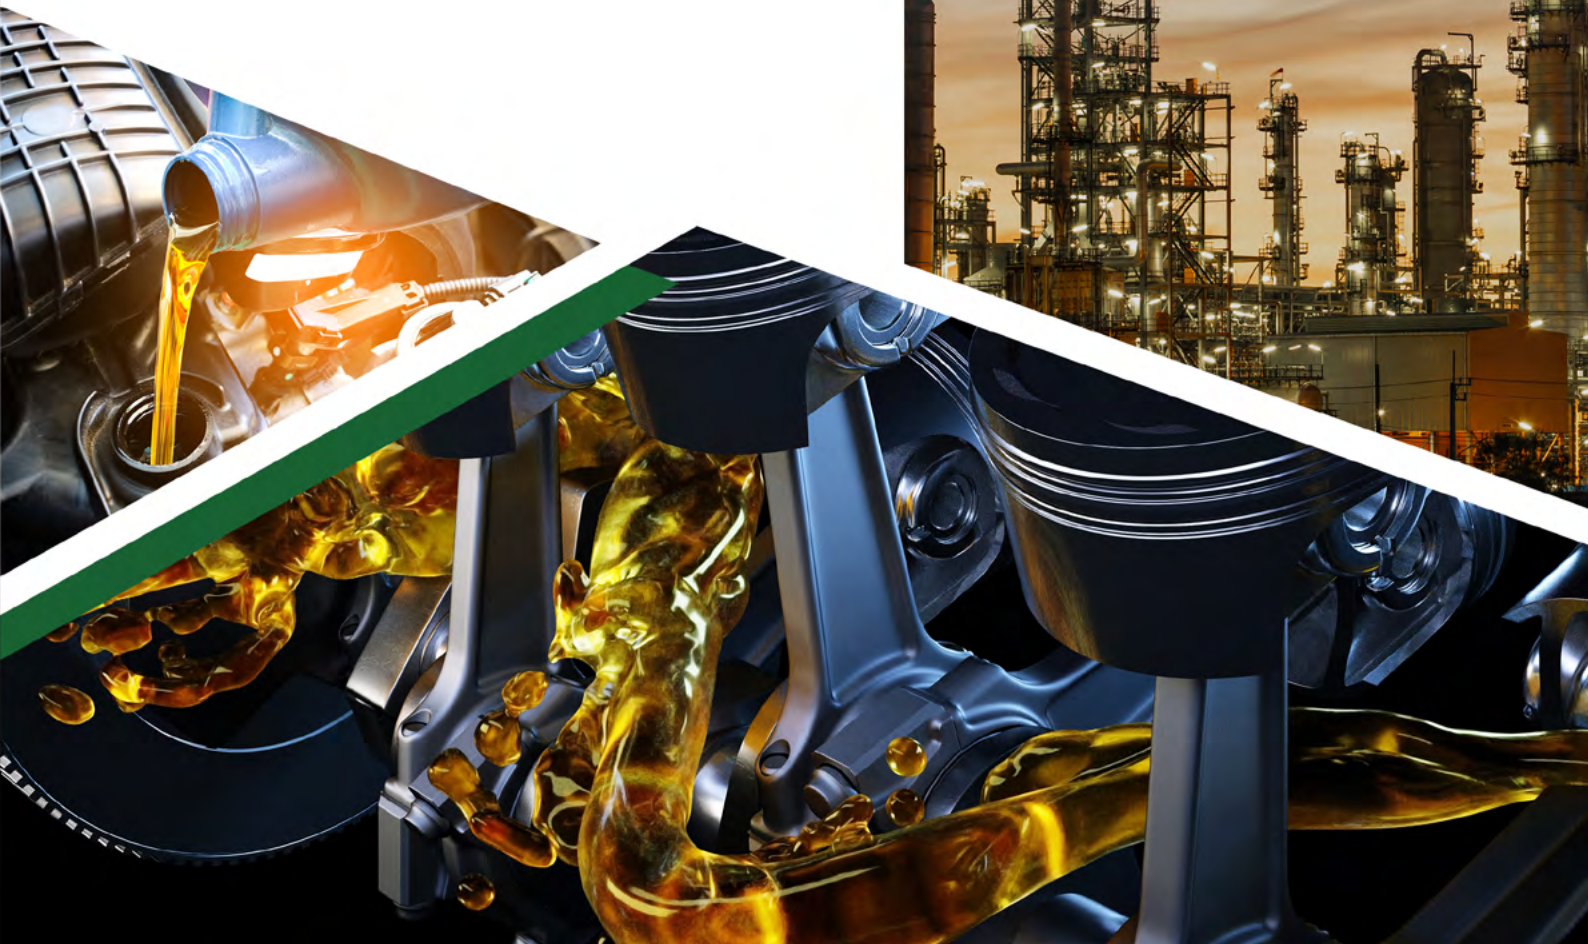

Grades We Export

- Group I Base Oil
- Group II Base Oil
- Recycled Base Oil
- Aromatics
- Process Oils

In high-quality packaging like steel drums (new and used) , flexi- tanks, IBC tanks, ISO tanks and Bulk etc. Our supply ranges in various sizes and quantities.

Furthermore, we have an expert team of Oil-industry professionals who use their trade service experience in different geographies and capacities to help our clients maximize their operations and functionalities. What's more, we have a broad experience in transporting base oil that enables us to fulfill the requirements of our clients while staying cost-effective at the same time. Not only this, but we have devised custom transporting solutions to ensure our clients'.

specific conditions are met properly to whatever location they would prefer the delivery. This, too, without compromising on the quality. So, there wouldn't be any leakage or spoilage.

Fertilizer

Wide-Spectrum Range of Organic & Inorganic Fertilizers – We're the Premium Suppliers

We take pride in delivering fertilizers with quality packaging, where we use PE bags to make our shipments available at all times. Over the years, our customized packaging has received considerable appreciation because of our customized delivery methods, i.e., we bear the unloading costs that don't allow the importer to divert their attention to unloading & overcoming the wastage. In addition, we ensure promising deliveries and peace of mind as our teams are engaged with SGS, Bureau Veritas & Inspectorate.

Buoyancy® is a premium-level Fertilizer export company that is centered on strict principles of enhancing the growth of cultivation. We have a substantial range of organic and inorganic fertilizers that benefit our client by improving the quality and effectiveness of soil through nutrients that enhance water retention and aeration necessary for soil.

The fertilizers we supply are manufactured to the utmost level of perfection. For this, we use the latest technology, equipment, and raw materials to deliver the end product. Our company leverages fertilizer delivery to position itself as a market leader with every passing year.

Fertilizers We Export

- Urea N46% (Prilled and Granular)
- DAP (Diammonium Phosphate)
- MAP (Monoammonium Phosphate)
- MOP (KCl) – Muriate of Phosphate
- Ammonium Nitrate (AN)
- Calcium Ammonium Nitrate (CAN)
- Ammonium Sulphate
- Sulphur Bentonite 90%
- NPK Fertilizers

Sulphur

Buoyancy® has been actively serving clients & exceeding their expectations in the Sulphur business for over 13 years. We have implemented a seamless process that allows us to upstream raw material access available at all times. Through this, our company manages substantial deliveries while ensuring top-notch quality for micro and macro projects.

Our company has been exporting numerous forms of Sulphur in a variety of packaging to more than 19 countries for exponential needs in industries such as paper and Pulp, fertilizer, copper mines, explosives, Sulfuric acid, match stick industries, sugar refineries, Rubber and Tyre etc.

Sub-grades of Sulphur we export;

- Granular Sulphur (Pastilles, Globular)
- Lumps Sulphur
- Flakes Sulphur
- Sulphur Blocks
- Sulphur Rolls
- Powder Sulphur 125 Mesh – 400 Mesh

Buoyancy® has not only outpaced all the competitors but also exceeded customers' expectations by addressing the slightest of details from sales, preserving, to final deliveries.
